

Clinical Fellow in Pediatric Urology (Fixed Term – 2 Years)

**General Hospital Vienna
Medical University of Vienna
Austria**

The Department of Pediatric Surgery at the General Hospital Vienna offers a full-time Clinical Fellow position in Pediatric Urology for a fixed term of two years. The department is a **European JCPU board-certified pediatric urology training programme**.

This fellowship is suitable for candidates who have completed specialist training (**Facharzt / specialist**) in either **Pediatric Surgery** or **Urology** and who wish to further develop their expertise in Pediatric Urology.

The post holder will participate in the surgical registrar on-call rota. The training programme actively encourages participation in clinical research.

The position is expected to commence in **May 2026**.

Applicants must hold **current Austrian professional registration** and demonstrate **proficient German language skills** (minimum level **B2**).

The official call for applications will be published on the website of the **Medical University of Vienna** approximately **four weeks prior to the application deadline**.
